The Members shall provide the safety boots and safety hats at their own expense unless the Contractor demands a safety hat of a particular colour or style, in which case, the Contractor shall supply as a minimum, a new liner in a hat that meets current safety requirements, at the Contractor's expense. Safety hats,

supplied by the Contractor, shall be returned by the employee on termination of employment.

4.3 Protection goggles shall be supplied to any employee, when required by the nature of the work being performed. The Contractor shall supply to the welder, the welder's safety hat, shield, goggles, heat resistant gloves and welder's leathers where required. When employees are required to work with welders, they shall be supplied with gloves and proper safety glasses. 5.1 Wages shall be paid by cheque, cash or electronic banking deposit not later than Thursday of each week. If paid by cheque or electronic deposit on Thursday, and a Holiday occurs on Thursday, payment by cheque or electronic deposit shall be on the preceding Wednesday. Employers payroll week ending will be 12:00 midnight Saturday of each week which is the EI week ending. If an employee incurs costs for a company payroll cheque which is rejected due to "Non Sufficient Funds", then all such costs will be borne by the Contractor.

Failure of payment in accordance with this provision will require the employer to pay waiting time of two hours at regular straight time including all applicable benefits per day until payment is received. If it is mutually agreed between the Business Manager and the Contractor that conditions beyond the control of the Contractor prevent the Employer from delivering the pay to the employee as per Article 5.1, then the penalty as pre described will not apply.

5.2 Each employee shall be given, with the employee's wages, a statement of all wages and allowances paid to the employee, and of all deductions made from the employee's wages. The statement shall also include the YTD (year to date) for all Health and Welfare and Pension hours contributions where the contractor has the ability to provide this via its established payroll system.

5.3 Contractors working in areas other than their regular place of business will, on request of the Union Business Representative in writing, arrange with a local bank for employees to cash their pay cheques.

5.4 In the event that the pension plan is prohibited by the provisions of paragraph 8510(7)(c) of the *Income Tax Regulations (ITA)*, as amended from accepting any contributions required by the terms of this Agreement on behalf of employees that are in receipt of a monthly pension from the pension plan ("working pensioners") or employees over the age of 71, an amount equal to such contributions shall be paid by the Employer to that employee as additional wages. The increase in vacation pay generated by this change will be drawn from the same pension contribution. MCA Zones 5 Sarnia, 10 Barrie and 11 Toronto – UA Local Union 46 (Toronto & Barrie) and 663 (Sarnia) are the only exceptions to this Article. Specifics for these are found in their respective Appendix.

In the event that contributions on behalf of working pensioners or employees over the age of 71 are inadvertently remitted to the pension plan and returned to the Employer, the Employer shall pay an amount equal to the refunded amount to that employee as additional wages.

The Union has an ongoing responsibility to identify working pensioners and those employees who are over the age of 71 and to provide the wage schedules for all such employees, applicable to the sector in which they are working. These schedules will be available upon hire or on change of status of the particular employee.

It is understood and agreed that the only additional cost arising from the implementation of this provision for which the Employer shall be responsible will be the amounts of additional statutory obligations (such as WSIB, EI, CPP and EHT) arising from the payment of additional wages to the employee pursuant to this provision.

The parties shall work cooperatively to address and resolve issues arising from the implementation of this provision.

In the event that there are future changes to the relevant statutes or regulations which affect this provision during the life of the current 2025-2028 Collective Agreement, the parties shall work cooperatively to identify and agree on appropriate amendments.

This provision shall be reviewed during the bargaining for the renewal of the current 2025-2028 Collective Agreement.

However, on a short term project or shutdown (7 consecutive days or less), employees shall be paid in full at the end of the work day or shift; and if such employees are not paid all wages and applicable benefits at the end of their shift, then payment shall be sent by Electronic Deposit or Registered Mail or Priority Post on the next regular work day to the employee's last known address, or as per written instructions from the employee to the Contractor's Representative on the job site. If not mailed the next regular work day, refer to Article 7.3.

7.3 When an employee is laid off and does not receive pay and other applicable benefits, the employee, in addition, shall be paid waiting time, including applicable benefits at the regular straight time rate for all regular hours until the employee's pay is received.

7.4 If it is mutually agreed between a Business Manager and a Contractor that conditions beyond the control of the Contractor prevent the employer from delivering the pay and applicable benefits to the employee on the day of lay-off, then the waiting time shall not apply. The agreement is not to be unreasonably withheld by either party.

7.5 When such lay-off is effected when an employee is working overtime or shift work (other than on a short term project or shutdown), or on a Saturday, Sunday or Holiday when the employer is unable to pay off at time of lay-off, the employee's pay, all applicable benefits and other documents mentioned herein, plus two (2) hours straight pay, shall be sent by Electronic Deposit or Registered Mail or Priority Post on the next regular work day to the employee's last known address, or as per written instructions from the employee to the Contractor's Representative on the job site. 7.6 The employee shall receive with the employee's pay, an "Employment Insurance Record of Employment" Form or an electronic reference number that is listed with Service Canada in a timely manner of three (3) days exclusive of Saturday, Sunday and recognized holidays. If not, a penalty of \$100.00 per business day to a maximum of five (5) days shall prevail. If it is mutually agreed between the Business Manager and Contractor that conditions beyond the control of the Contractor prevent the Employer from delivering this to the employee, then the penalty as pre-described will not apply. When this penalty applies, the penalty will be paid to the member and added to his/her wages.

7.7 The Contractor, at the time of laying off an employee, shall give preference of employment to the members from the Local Union.

ARTICLE 8 - VOLUNTARY TERMINATION - DISCHARGE

When such discharge has taken place the employment relationship shall be deemed to be immediately terminated.

ARTICLE 9 - TRADE OR WORK JURISDICTION

9.1 The parties to this Agreement recognize that it is the employer's sole responsibility to assign work. The contractor shall not assign work contrary to existing area practices predicated on jurisdictional wording outlined in other trade Collective Agreements. The reference herein, to area practices and/or jurisdictional awards must be area practices and/or awards that have been accepted and practiced on projects between Unions. The Contractor will cooperate in defining trade jurisdiction assignments by means of a letter as requested by the Business Manager on projects upon request; in accordance with a standard form to be provided by the Business Manager. The Employer shall not unduly refuse to cooperate with such request. The noted standard form is to be provided to the Business Manager by the OPTC.

9.5 Jurisdictional disputes shall not be used to cause work stoppages.

If a satisfactory settlement is not reached within the time limit prescribed the matter shall be referred to Step Two (2).

working days of such difference. The written submission shall state the nature of the grievance, any pertinent provisions of this Agreement, and remedy sought.

On receipt of such grievance, the Board shall be convened, within four (4) regular working days, to discuss the grievance as submitted in writing, and attempt to reach a settlement between the parties. In the event a settlement cannot be reached within four (4) regular working days from the date upon which the Board convened, either party may request that the matter be referred to arbitration. Where there is no Board, the difference may proceed directly to arbitration under the provisions set out in Article 18, within fourteen (14) regular working days from the date the grievance arose, but not later. Any time limits stipulated in this Article may be extended by mutual agreement of the parties in writing, which agreement shall not be unreasonably withheld.

17.3 Any grievance submitted by the employee, the Union, the Zone Association or the Contractor, that has not been carried through Article 17 - Grievance Procedure Clauses and in accordance with the time limits specified, or mutually agreed to (which agreement shall not be unreasonably withheld), will be deemed to have been settled satisfactorily by the parties of the grievance.

18.3 The two arbitrators so nominated shall attempt to select by agreement, a Chairperson of the Arbitration Board. If they are unable to agree upon a Chairperson within a period of five (5) regular working days following the date of their appointment, they shall then request the Minister of Labour for the Province of Ontario to appoint a Chairperson.

18.4 No person may be appointed as an arbitrator who has been involved in an attempt to negotiate or settle the grievance.

18.5 No matter may be submitted to arbitration which has not been properly carried through the proper steps of the Grievance Procedure.

18.6 The Arbitration Board shall not be authorized to make any decision inconsistent with the provisions of this Agreement, nor to alter, modify nor amend any part of this Agreement.

18.7 The proceedings of the Arbitration Board shall be expedited by the parties hereto, and the decision of a majority of such Board shall be final and binding upon the parties hereto and the employee or employees concerned. If there is no majority decision, then the decision of the Chairperson shall govern.

18.8 Each of the parties hereto shall bear the cost of the arbitrator appointed by it, and the parties shall share equally the costs of the Chairperson of the Arbitration Board.

18.9 For the purpose of applying the provisions of this Article, Saturdays, Sundays and Holidays are excluded.

ARTICLE 19 - GOVERNMENT LEGISLATION

Any Federal, Provincial or Municipal Legislation in effect, or hereinafter enacted, will supersede any relevant clause in this Agreement without nullifying the remainder of this Agreement.

ARTICLE 20 - ONTARIO PIPE TRADES PROMOTION FUND

There shall be a United Association Promotion Fund known as the Ontario Pipe Trades Promotion Fund. The Contractor agrees to deduct from each employee the sum of 26 cents for each hour earned and shall remit same to the Local Union Administrator, who shall forward the amount to the Secretary-Treasurer of the Ontario Pipe Trades Council. Payment for the fund as outlined in this Agreement shall be made in accordance with the Payment of Funds procedures as outlined in each local appendix. It is understood and agreed that this fund is included in, and to be taken from, the total "gross" package offered by the MTBC.

21.1 Contractors requesting welders from the Union shall make known the type of welding that is required. The welders requested shall show adequate proof to the Contractor of previous experience, prior to testing, for the type of welding to be performed, or no remuneration shall be required. Welders tested to procedures other than the one stipulated by the Zone, shall be paid from the time of hire to completion of test at the regular rate of pay including all applicable benefits.

21.2 Welders working under the jurisdiction of the Local Union shall cut and grind their own coupons on black pipe. Alloy coupons may be sent out to be cut by power-saw and shall be returned for grinding by the member working the test.

21.3 Each contractor working under the terms of this agreement shall contribute four (4) cents per hour earned to the MCAO Welding Test Fund (WTF). The Administrator for the local trust funds shall forward these WTF contributions to MCA Ontario. This fund shall be used by MCAO to cover all costs incurred in relation to the MCAO Standard Provincial Welding Procedures Program. All Contractors participating in this program are required to complete the program's "Participant Declaration Form"; and be in receipt of approval from MCAO for participation.

21.4 With respect to tests conducted, on welders for qualification to the procedure specifically identified by the zone, recognized by the Technical Standards and Safety Authority (TSSA), the following shall apply:

a) Where available and convenient, such tests will normally be conducted at the Local Union facilities. The Contractor may, however, have tests conducted on the jobsite or at the designated Contractor shop.

b) Employed welders shall be paid by the Contractor at the regular rate of pay, including all applicable benefits, for the successful completion of a qualification test on the noted zone-specific procedure.

c) Unemployed welders shall be paid a total of \$200.00 for a qualification test successfully completed on the noted zone specific procedure. The welder will be entitled to receive this pay from the first Contractor that hires the welder. When hired, the welder is to submit written verification to the Contractor (from the Local Union) that such test was conducted while unemployed. The Contractor shall thereafter be reimbursed by MCAO for this payment. The Local Union will make every effort to keep the Tickets of all unemployed welders fully updated with respect to the zone-specific procedure, where the individual welder has normally been required to work to this procedure by contractors in the past. The number of unemployed welders tested to zone-specific procedure will be determined by the Local Union based on expected future welder demand; and is subject to future joint review by MCAO and the OPTC.

d) Costs related to Test Facilities and Materials, in relation to the noted zone-specific procedure tests conducted by the Local Union (on both Employed and Unemployed

Welders), shall be covered by the Local Union; and reimbursed to the Local Union at \$200.00 per test successfully completed. TSSA Fees for conducting all tests to this Procedure (on both Employed and Unemployed Welders) shall be paid by MCAO directly to the TSSA. When requested by a contractor to supply a CWB welder, the local union will be reimbursed \$200.00 for the CWB successfully completed test by the WTF.

e) All Welders will normally have their ticket update testing the zone-specific procedure conducted during the month of their birthday; in each year during which an upgrade test is required by the TSSA (ie. annually or otherwise). All expenses for CWB qualifications (fees, consumables, etc) shall be paid for by the Employer).

f) No Welder shall be dispatched without holding an updated ticket for the specific MCAO Procedure called for by the Contractor.

21.5 This requirement shall not have any effect on established procedures in certain MCA Zones where additional/other standard welding procedures have been established and recognized by the TSSA.

21.6 MCAO has the right to cancel this program on ninety days notice.

All pipe work installed by the contractor on the job site shall be cut and fabricated by employees who are members of the United Association. Contractors who fabricate piping off the job site shall register the fabrication location with the Union and shall utilize employees who are members of the United Association to perform the work under the terms and conditions of this agreement. The above shall not be deemed to include regular items of self-contained packaged equipment, with associated integral piping normally listed in manufacturers' catalogues.

Piping and/or piping related components which are designed, cut and/or fabricated in accordance with specifications provided by the customer or engineer, or selected on behalf of a contractor shall not be considered as "regular items of self-contained packaged equipment, with associated integral piping normally listed in manufacturers' catalogues" nor shall such components be considered to be or as part of "regular items of self-contained packaged equipment, with associated integral piping normally listed in manufacturers' catalogues".

For greater clarity, loose shipped fabricated piping and associated components (such as brackets, hangers, etc) which are provided by an Original Equipment Manufacturer as part of a registered or factory designed packaged system, such as, but not limited to large knocked down chillers and boilers, shall not be subject to the restrictions in 24.1.

24.2 Where the word "shop" is used in this section it shall be defined as a shop under agreement with the United Association or one of its Local Unions in the Province of Ontario.

24.3 Contractors who will be fabricating in a shop outside of the Union jurisdiction wherein the fabricated materials are to be installed must comply with the following, prior to commencing fabrication (regular Union label shops need not comply with this requirement): "Notify Business Managers or Business Agents for the Union, in writing, on the company letterhead, where fabricating and where fabricated materials are to be installed".

24.4 Both the Union and employer acknowledge that exceptions may arise where the employer is required to install equipment such as skid mounted vessels, pumps, driers, exchangers, etc. Prior to commencement of this work, where the employer is required to install such components and if the matter cannot be mutually resolved between the employer and the union, it shall be immediately referred to the Provincial Joint Advisory Board for an immediate solution.

24.4.1 All header piping systems that interconnect boilers, chillers, pumps etc shall be fabricated by UA members.

All pump drops shall be fabricated by UA members.

24.5 Subject to existing jurisdictional agreement between trades, decisions of record, or established area practice, all brackets, hangers and pipe supports that are not specifically itemized and listed in a standard manufacturer's catalogue, are to be fabricated by members of the Union.

24.6 Notwithstanding the above provisions of Article 24, the following will apply with respect to Pipe Fabrication in Canada, effective May 1, 2010:

1.) Signatory Contractors working under the terms and conditions of Local or Provincial ICI collective agreements will have the right to pre-fabricate piping for any comfort heating and cooling in any of their facilities under agreement with the United Association.

2.) In any jurisdiction that has mandated mobility provisions (such as Ontario) in their agreement, the installing Contractor must provide to the local union Business Manager, where the piping is to be installed, an accurate assessment of the full-time equivalent of workforce performing the work in their shop and the mobility provisions will be reduced accordingly.

3.) Signatory Contractors working under the terms and conditions of Local or Provincial ICI collective agreements wishing to pre-fabricate plumbing (all sizes) will contact the local union Business Manager, where the plumbing is to be installed, and demonstrate the cost efficiencies for such fabrication and perform a similar assessment of full-time workforce equivalencies regarding mobility.

ARTICLE 25 - I.C.I. CONTRACTORS

The United Association and its Affiliated Local Unions agree that its members when working in the I.C.I. Sector shall only work for bonafide mechanical contractors. Said contractors prior to hiring of U.A. members will be bound by this Agreement between Mechanical Contractors Association of Ontario and the Ontario Pipe Trades Council. The parties to this agreement agree that in the event that employees are supplied to a contractor by the United Association, the Council or any affiliated Local thereof for the purposes of making application for certification, or protecting the union's jurisdiction, no objection shall be made by the Mechanical Contractors Association Ontario.

*Refer to Appendix A regarding original "Letter of Understanding" (which was amended July 4, 1990, as noted in above paragraph)

ARTICLE 26A - MECHANICAL INDUSTRY ADVISORY COMMITTEE

26A.1 There shall be a Mechanical Industry Advisory Committee (MIAC) comprised of equal representation of the parties reflecting the various regions of the Province. Effective May 23, 2010, each Contractor working under the terms of this agreement shall contribute one (1) cent per hour earned; up to five (5) cents if required, to the Mechanical Industry Advisory Committee (MIAC) Fund. The administrator for the local trust funds shall forward said MIAC contributions to MCA Ontario.

ARTICLE 26B – LOCAL AMENDMENT BY AGREEMENT

26B.1 A Local Union and the Local Mechanical Contractors Association Zone Association, in order to stay competitive in the local geographic area, may amend the terms and conditions of its local appendix. These discussions will be concluded within 10 days. All agreements regarding local appendix changes will be approved or rejected, by the Mechanical Industrial Advisory Committee or the parties' respective Employer/Employee Bargaining Agencies, within a maximum of five (5) working days. It is agreed that in all other aspects, the terms and conditions of the Provincial Agreement shall prevail. Failing agreement, either the Local Mechanical Contractors Association or Local Union may refer the issues to the Provincial MIAC Committee for further discussions towards an agreement to be concluded within 10 days of such referral.

ARTICLE 26C – LOCAL AMENDMENT WHERE NOT ACHIEVED UNDER ARTICLE 26B

26C.1 The MCAO and the OPTC agree to recognize that the only Designated Regional Employer Organization ("DREO") applicable to work covered by this Provincial Agreement in the Industrial, Commercial and Institutional sector of the construction industry in the Province of Ontario is MCAO acting on its own behalf or on behalf of a local MCA Zone Association. The MCAO and OPTC agree that they will jointly oppose any application to the Ministry of Labour by any other group of employers for "Designated Regional Employer Organization (DREO)" status (under the Labour Relations Act, 1995) applicable to work in the Industrial, Commercial and Institutional Sector of Ontario's construction industry, as covered by this collective agreement.

26C.2 The MCAO on its own behalf and on behalf of an MCA Zone Association/DREO may apply to a Local Union affiliated with the OPTC to modify the Provincial Agreement in respect of the following only:

26C.5 No application shall be made under Clause 26C.2 or under the Act, unless a local amendment has not been obtained under the provisions of Article 26B.

26C.6 The application may seek amendments that concern the following matters only:

- 1.) Wages, including overtime pay and shift differentials.
- 2.) Accommodations and travel allowances.
- 3.) Requirements respecting the ratio of apprentices to Journeypersons employed by an Employer, subject to the Trades Qualification and Apprenticeship Act and Regulations thereto.
- 4.) Hours of work and work schedules.

26C.7 The application shall be in writing and shall include the following:

- 1.) The Scope of the application identifying the kind of work covered by the Provincial Agreement, the market in which such work is performed and the location of such work as required by Clause 26C.2.
- 2.) Any and all evidence and submissions the Applicant MCAO believes to be relevant in determining the question of whether the provisions of the Provincial Agreement render employers bound by the Provincial Agreement at a significant competitive disadvantage with respect to any of the matters referred to in the application.
- 3.) Text of amendments applied for concerning the matters listed in Clause 26C.6.

The Application shall constitute the entirety of the Final Offer of the Applicant MCAO.

26C.8 The MCAO shall serve its application on the OPTC and the affected Local Union. The MCAO and the OPTC shall provide notice of the application to all other MCA Zone Associations and Local Unions respectively for information purposes only.

26C.9 The Applicant and the Local Union will have three days to settle the question as to whether there is a competitive disadvantage in light of current market conditions relating to the specified kind of work, the market in which it is performed and the specified portion of the Local Union's geographic jurisdiction and any appropriate Local Amendment(s).

26C.10 If the parties are unable to resolve the existence of competitive disadvantage and/or are unable to agree on the appropriate Local amendment(s), the Local Union and or the OPTC shall file a Response to the application within ten days of receipt of delivery of the application containing any and all evidence and submissions that the Local Union and/or OPTC believe are relevant to:

- 1.) The existence of a competitive disadvantage in light of current market conditions; and/or
- 2.) The text of any appropriate amendments and/or the necessity of amendments concerning the items enumerated in Clause 26C.6;

by delivery to the MCAO and the affected MCA Zone Association.

The Response shall constitute the entirety of the Final Offer of the OPTC and/or Local Union.

ARTICLE 26D - ARBITRATION

26D.1 The Application will be arbitrated no later than the 14th day following delivery of the application under Clause 26C.2. The Arbitrator must:

- 1.) Determine whether there is a competitive disadvantage to contractors bound to the Provincial Agreement with respect to the scope of work defined in the Application having regard to current market conditions; and, if so

2.) Select either the amendment proposed in the Application or those proposed in the Response by the final offer selection process.

The Arbitrator will hold a written hearing and if he or she deems it necessary (or if either party requests same), shall also hold an oral hearing, whether in person, by teleconference, or otherwise; and shall render a decision within 3 days following completion of hearings.

26D.2

1.) In order to consider the issue of competitive disadvantage, the Arbitrator shall consider all points raised in the application and response.

2.) The Arbitrator shall determine whether the competitive disadvantage would be removed if the Provincial Agreement were amended in accordance with either of the final offers.

3.) If the amendment of the Provincial Agreement in accordance with only one of the final offers would remove the competitive disadvantage, the Arbitrator shall select that final offer.

4.) If amendment of the Provincial Agreement in accordance with neither of the final offers would remove competitive disadvantage, the Arbitrator shall select the final offer that most reduces the disadvantage.

5.) If the amendment of the Provincial Agreement in accordance with either of the final offers would remove the competitive disadvantage, the Arbitrator shall select the final offer that would be less of a deviation from the Provincial Agreement.

6.) Within 30 days of ratification of the 2007/2010 Provincial Agreement, the OPTC and the MCAO will meet to agree on a roster of arbitrators to arbitrate applications for Local Amendments of the Provincial Agreement. The appointment of arbitrators to specific applications for local amendments shall be on a rotating basis. The roster shall consist of three arbitrators. Thereafter, the OPTC and MCAO will meet within 60 days prior to expiry of the current agreement, to renew the roster of arbitrators for the subsequent agreement period. Where mutual agreement cannot be reached on the roster of arbitrators, the chair of the Ontario Labour Relations Board or its successor will be asked to appoint them.

7.) The parties shall each pay one-half of the costs and expenses of the arbitrator.

8.) Any disputes regarding whether work falls within the target area of a Local Amendment Arbitration or any other issue dealing with the interpretation, application or alleged violation thereof will be resolved through the grievance procedure under the Provincial Agreement and shall be referred to the final offer selection arbitrator imposing the Local Amendment at issue.

ARTICLE 26E – EFFECTIVE DATES/ REVIEW OF LOCAL AMENDMENT

1.) A Local Amendment Agreement reached under Article 26B or 26C or via Local Amendment Arbitration award under Article 26D shall be effective for a specific period of time not to exceed three years following the date reached/awarded, respectively.

2.) A Local Amendment Agreement reached under Article 26B or 26C or via Local Amendment Arbitration award under Article 26D may be reviewed annually by the Applicant and the affected Local Union (understanding that a request for such review may not be unreasonably objected to by the other party), and such agreement or award, as the case may be, shall cease to operate for all purposes in the event that the Local Union can establish upon agreement with the applicant or before the same arbitrator, that the competitive disadvantage no longer exists in light of subsequent market conditions. Where such agreement or award ceases to operate, any work in progress that has been contracted or tendered shall be performed under the terms of the local amendment, agreement or award.

3.) There shall be a bar of one year from the date the original application was delivered to the affected Local Union on reapplying for local amendments to the Provincial Agreement, if an application for such amendments is previously made to an affected

Local Union. This part shall apply to applications that either include or are substantially the same as the previous application.

ARTICLE 29 - DEEMED ASSIGNMENT OF COMPENSATION

The Trustees of the employee benefit plans to this Collective Agreement shall promptly notify the Local Union of the failure by any employer to pay any employee benefit contributions required to be made under this Collective Agreement and which are owed under the said plans in order that the Program Administrator of the Wage Earner Protection Program may deem that there has been an assignment of compensation under the said Program in compliance with the Regulations of the current Employment Standards Act (ESA) in relation to the Wage Earner Protection Program.

ARTICLE 30 - CONTINUATION OF BENEFIT COVERAGE

Effective May 14, 1992 the Contractor will contribute \$.03 per hour earned to the Local Union employee benefits plans of this collective agreement to assure continuation of benefit coverage as provided for in the Workers Compensation Act.

The starting and finishing times of the stipulated regular hours of work may vary on any job site by one (1) hour. The total number of regular hours of work per day shall remain as per the applicable local appendix.
